

Volume 7

GIVING TUESDAY, DECEMBER 1, 2020. Any donations this week will be matched 1:1 by board members, up to 1000\$. MontanaHPHC will be active at the MT 2021 Legislative Session on bills that improve human and planetary health. Donations will help us plan for and attend legislative committee sessions.

[To make a tax-deductible donation, click here](#)

We'd love to introduce you to our newest board member: Jennifer Robohm, PhD. Jen is a clinical psychologist who has spent the last 16 years training health professionals to serve Montana. You might find her playing ice hockey with her son in Missoula!

The wildfires of 2017 motivated Jen to care even more about climate. She is working on an MPH from Johns Hopkins seeking an MPH degree to study the physical and mental health impacts of climate change. Next semester, she and Hayley Blackburn, PharmD, are offering a course on "Climate Change and Human Health" through UM and MSU.

To learn more about this education/training opportunities (including opportunities to audit the course), please contact Jen at jennifer.robohm@umontana.edu

[Read more about Dr. Robohm here](#)

[Read her UM bio here](#)

December 1, TONIGHT, 7 p.m., FREE

Sponsored by CCL Montana. Register [here](#).

Montana Climate
Office

"All climate is local"

The Montana Climate Office provides high-quality, timely, relevant, and scientifically based climate information and services to Montanans. As Montana's official climate data stewards, we strive to provide information for specific sectors of interest by either geography or industry, and assist stakeholders in adapting climate products to their needs.

Personal Action

Food Waste

We each waste 1# of food/day, or 30-40 % of all food in the U.S., and that is 20% of what goes to the dump.

Compost - in your backyard, your basement with Bokashi, or join a

community composting service available in most Montana cities. Compost should be an asset, not a liability! PHOTO: iStockPhoto
